Business Standards Division

EMT Wilderness Educational Programs

It is the position of the Montana Board of Medical Examiners; Emergency Medical Technicians who attend EMT Wilderness educational programs do so to expand their education and flexibility in applying patient care in non-conventional settings; while maintaining patient care standards as identified by the Board approved Montana EMT Statewide Protocols. The altering of Board approved Montana EMT Statewide Protocols by individual EMT's is unsafe practice and may result in Board action against the licensee. There is a Board process for the Medical Director to alter Board approved Montana Statewide EMT Protocols for specific services if necessary. Individual EMT's must function within the protocols.

This "Statement" reflects the Board's recommendations, and does not purport to be a law, rule or regulation in itself.
